Grafting Fruit Trees and Rooting Cuttings

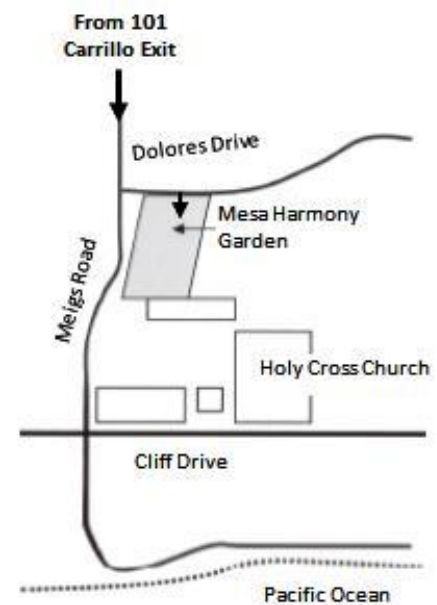

Practical Tips and Hands-On Experience

Join Russ Baldocchi in the garden for ...

- Practical tips on grafting apple scions to rootstock – come create your own frankenstein to take home!
- Propagation of new plants from cuttings of mulberry, pomegranate, grape, lemon verbena, rosemary, and thornless blackberry

Bring your own apple scions or various cuttings, or use the ones provided.
Don't forget water and a sunhat.

Donations to MHG are encouraged to cover the cost of provided materials.

Donations are always welcome to support Mesa Harmony Garden - a 501c3 non-profit
